

**Focus on Energy Affordable Housing Program
Wisconsin Neighborhood Stabilization Program (NSP)
Incentives/Grants for Existing Housing
January – December 2009**

Incentive/Grant

- \$3,000 incentive/grant for attaining performance requirements below.
- Additional and variable incentives apply from Home Performance with ENERGY STAR depending on prescriptive measures instituted

Requirements

- Must be an existing house, duplex, or triplex
- Must engage a Home Performance with ENERGY STAR Program consultant to provide technical assistance
- Air tightness limit – .35 cfm/sq ft shell area
- Ventilation – ASHRAE 62.2;
- Design for and attain a score of 80 on the Home Energy Rating System (HERS) index.

Project Eligibility

- Located in an area serviced by a participating electric or natural gas utility (see other side).
- Income qualification of project beneficiaries must be at or below 80% of county median income (CMI).

Organizational Eligibility

- 501(c)3 status or unit of local government.
- Complete Focus Market Provider Agreement and an Affordable Housing Application

Budgeting

- For budgeting energy efficient upgrades to NSP projects you should have some idea of just how much work is needed on the housing stock you plan to work with. Upfront project costs to meet the performance criteria will probably be in the range of \$10,000 to \$20,000. The projected reduction in annual energy costs, based on a current project, should be in the range of 30 – 70%.
- Questions? Please call.

Application Deadline

Application deadline is December 1, 2009.
